## REPORT OF INDEPENDENT AUDITORS

BOARD OF TRUSTEES  
SECOND HARVEST FOOD BANK OF THE MAHONING VALLEY

### ***Opinion***

We have audited the accompanying financial statements of Second Harvest Food Bank of the Mahoning Valley (a nonprofit organization), which comprise the statements of financial position as of December 31, 2023 and 2022, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Second Harvest Food Bank of the Mahoning Valley as of December 31, 2023 and 2022, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Second Harvest Food Bank of the Mahoning Valley and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Second Harvest Food Bank of the Mahoning Valley's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Second Harvest Food Bank of the Mahoning Valley's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Second Harvest Food Bank of the Mahoning Valley's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated September 26, 2024, on our consideration of Second Harvest Food Bank of the Mahoning Valley's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Second Harvest Food Bank of the Mahoning Valley's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Second Harvest Food Bank of the Mahoning Valley's internal control over financial reporting and compliance.

## Second Harvest Food Bank of the Mahoning Valley

# NOTES TO FINANCIAL STATEMENTS

December 31, 2023 and 2022

---

## NOTE A - NATURE OF OPERATIONS

The Second Harvest Food Bank of the Mahoning Valley (the "Food Bank") is a private non-profit Food Bank incorporated in the State of Ohio. The primary mission of the Food Bank is to collect donated foods and to distribute the foods to needy individuals through member Food Banks, such as pantries, soup kitchens, day-care centers, and senior programs in the three counties of Mahoning, Trumbull, and Columbiana in Northeast Ohio.

## NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Adoption of New Accounting Pronouncement

In June 2016, the Financial Accounting Standards Board (FASB) issued guidance (FASB ASC 326) which changed how entities will measure credit losses for most financial assets and certain other instruments that aren't measured at fair value through net income. The most significant change in this standard is a shift from the incurred loss model to the expected loss model. Under the standard, disclosures are required to provide users of the financial statements with useful information in analyzing an entity's exposure to credit risk and the measurement of credit losses. Financial assets held by the Food Bank that are subject to the guidance in FASB ASC 326 were trade accounts receivable. This standard was effective and adopted on January 1, 2023. The impact of the adoption was not considered material to the financial statements and primarily resulted in enhanced disclosures only.

### Cash and Cash Equivalents

Cash equivalents consist of temporary bank deposits, certificates of deposit, and money market instruments with a maturity of three months or less as of the purchase date.

### Receivables and Allowances for Credit Losses

The Food Bank operates in the non-profit sector and its trade receivables are primarily derived from amounts due from member organizations. At each balance sheet date the Food Bank recognizes an expected allowance for credit losses. All trade receivables are reported on the balance sheets at their cost adjusted for credit losses, which represents the net amount expected to be collected.

### Trade Receivables

The estimate for trade receivable credit losses is updated at the balance sheet date to reflect any changes in credit risk since the receivable was initially recorded. This estimate is calculated on a pooled basis where similar risk characteristics exist. Trade receivables are evaluated individually when they do not share similar risk characteristics which could exist in circumstances where amounts are considered at risk or uncollectible. The allowance estimate is derived from a review of the Food Bank's historical losses based on the aging of receivables. This estimate is adjusted for management's assessment of current conditions, reasonable and supportable forecasts regarding future events, and any other factors deemed relevant by the Food Bank. The Food Bank believes historical loss information is a reasonable starting point in which to calculate the expected allowance for credit losses as the Food Bank's portfolio segment(s) organizations and county agencies have remained constant. As of the financial statement date, management believes all trade receivables are collectible.

**Second Harvest Food Bank of the Mahoning Valley**  
**NOTES TO FINANCIAL STATEMENTS**  
December 31, 2023 and 2022

---

**NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Promises to Give**

Contributions are recognized when the donor makes a promise to give to the Food Bank that is, in substance, unconditional. Contributions that are restricted by the donor for specific purposes are reported as contributions with donor restrictions that increases that net asset class. When donor restrictions expire, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restriction. The Food Bank uses the allowance method to determine uncollectible promises receivable. The allowance is based on prior years' experience and management's analysis of specific promises made. As of the financial statement date, management believes all accounts are collectible.

**Grants Receivable**

Grants receivable consist of grants awarded by federal and state agencies, as well as from local organizations, and are recorded net of an allowance for doubtful accounts. The excess of reimbursable expenditures over cash receipts is included in grants receivable. The Food Bank considers all grants receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required at December 31, 2023 and 2022. If amounts become uncollectible, they will be charged to operations when that determination is made.

**Investments**

Investments in marketable securities with readily determinable fair values are reported at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. Investment income and gains with donor restriction are reported as increases in net assets without donor restriction if the restrictions are met (either by passage of time or by use) in the reporting period in which the income and gains are recognized. Short-term investments consist of certificates of deposit (CD's) and treasury bills with an original maturity of three months to a year, as of the purchase date.

**Inventory**

Inventory consists of purchased wholesale inventory items that are determined on a first-in, first-out basis and are valued at net realizable value. The Food Bank receives inventory from the Feeding America network, the U.S. Department of Agriculture, and various other donors at no cost. These inventory values are based on weight. The donated inventory is valued using the approximate average wholesale value of one pound of donated product at the national level. This value of \$1.93 per pound for 2023 and \$1.92 per pound in 2022 was subject to certain agreed-upon procedures by a major international CPA firm. The weights are recorded on a perpetual inventory that accurately reflects the movement of the goods from donors and to regulatory agencies. Donated product inventory totaled \$248,988 and \$637,918 at December 31, 2023 and 2022, respectively.

**Property and Equipment**

The Food Bank follows the practice of capitalizing all purchases for land, buildings, and equipment at cost. Donations of property and equipment are recorded as contributions at their estimated fair value. Such donations are reported as without donor restriction contributions unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as contributions with donor restrictions. Absent donor stipulations regarding how long those donated assets must be maintained, the Food Bank reports expirations of donor restrictions when the donated or acquired assets are placed in service. Property and equipment are depreciated over their estimated useful lives using primarily the straight-line method.

**Agency Credits**

Agency credits consist of amounts due to member agencies. The credits are generated from overpayments, grants awarded and restricted donations. The credits are used to pay the shared maintenance fee (handling cost).

## NOTES TO FINANCIAL STATEMENTS

December 31, 2023 and 2022

---

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Donated Services and Securities

Donated services recognized in the financial statements consist of advertising and other professional services. The Food Bank also receives volunteer services for fundraising, clerical, office, warehouse services and repairs. The value of these donated services is not included in the accompanying financial statements, as such services do not create or enhance nonfinancial assets or require specialized skills. Donated securities are recorded at fair value at the date of donation. Donated securities are recorded at fair market value at the date of donation.

#### Revenue Recognition

##### Donated Food

A significant amount of revenue for the Food Bank is derived from donated food received from the Ohio Association of Foodbanks. These recognized values are based on weight of product received. The donated product is valued using the approximate average wholesale value of one pound of donated product at the national level according to Feeding America. In addition, all support and revenues are considered exchange transactions and accordingly revenue is recognized when product is received and expenses are recognized when product is shipped.

##### Contributions

Contributions are revenues received for which direct commensurate value is not received by the donor. Contributions may be conditional or unconditional. Unconditional contributions are recognized as revenue immediately on the Food Bank's statements of activities. Recognition of revenue is deferred for conditional contributions until all donor-imposed conditions have been substantially met by the Food Bank. At that point, the contribution is then considered to be unconditional. As of December 31, 2023 and 2022, the Food Bank does not have any conditional contributions.

##### Revenue from Contracts with Customers

Revenues are recognized at the point in time the performance obligation is satisfied, and when the service is provided, in an amount that reflects the consideration the Food Bank expects to be entitled to in exchange for those services. The Food Bank did not exercise significant judgement in determining the timing of satisfaction of performance obligations, or the price.

#### Income Taxes

The Food Bank is a not-for-profit organization which is exempt from income taxes under Section 501(c) (3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation.

#### Classification of Net Assets

The net assets of the Food Bank are reported as follows:

**Without Donor Restrictions** represents operating net assets which are available for the general operations of the Food Bank as net assets without donor restriction, as well as Board-designated net assets set aside for future use.

**With Donor Restriction** represents gifts of cash or other restricted support if they are received with donor stipulations that limit the use of donated assets. When a donor restriction expires (that is, when a stipulated time restriction ends or a purpose restriction is accomplished), net assets with donor restriction are reclassified to net assets without donor restriction and reported in the statement of activities as net assets released from restrictions. Donations received with restrictions that are met in the same reporting period are reported as unrestricted support and increase net assets without donor restrictions.

**Second Harvest Food Bank of the Mahoning Valley**  
**NOTES TO FINANCIAL STATEMENTS**  
December 31, 2023 and 2022

**NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Functional Allocation of Expenses**

The costs of providing various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited. Certain categories of expenses require allocation to more than one program or supporting function on a reasonable basis that is consistently applied. Expenses that are allocated include salaries and benefits, which are allocated based on time and effort. The remaining expenses, which are not directly identifiable by program or support service, are allocated based on best estimates of management.

**Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**NOTE C - CONTRACT ASSETS AND LIABILITIES**

Balances of contract assets and liabilities are as follows:

	<u>January 1, 2022</u>	<u>December 31, 2022</u>	<u>December 31, 2023</u>
Trade receivables	\$ 3,083	\$ 22,824	\$ 25,382

**NOTE D - AVAILABILITY OF FINANCIAL ASSETS**

The following reflects the Food Bank's financial assets as of the balance sheet date, reduced by amounts not available for general use because of contractual or donor-imposed restrictions within one year of the balance sheet date.

Financial Assets		
Cash and cash equivalents	\$	1,758,088
Short-term investments		5,147,933
Investments		7,022,746
Trade receivables		25,382
Grants receivable		80,848
Total financial assets		<u>14,034,997</u>
Less those unavailable for general expenditures within one year, due to:		
Board designated net assets		(900,000)
Donor-imposed purpose restrictions		<u>(452,939)</u>
Financial assets available within one year to meet cash needs for general expenditures within one year		<u>\$ 12,682,058</u>

The Food Bank maintains a liquid cash balance in checking and savings accounts in an amount necessary to meet its anticipated expenditures. Management evaluates working capital needs based on cash flow, timing of receivables, and expectations of expenses to determine the amount.

**Second Harvest Food Bank of the Mahoning Valley**

**NOTES TO FINANCIAL STATEMENTS**

December 31, 2023 and 2022

**NOTE E - NET ASSETS**

**Net assets without donor restrictions**

The Board of Trustees has designated, from net assets without donor restrictions, net assets earmarked for operating reserves. The Food Bank is a member of Feeding America, which is a nationwide network of food banks in the United States. As a member of the network, the Food Bank purchases food product from Feeding America. Feeding America requires the Food Bank to maintain approximately six months of expenses in reserve in the event that it lacks sufficient funding to pay its bills. Board designated net assets totaled \$900,000 for the years ended December 31, 2023 and 2022.

**Net assets with donor restrictions**

Net assets with donor restrictions are available for the following purposes or periods:

	December 31,	
	2023	2022
Child hunger	\$ 12,230	\$ 29,979
Emergency food and shelter program	223,877	131,023
Mobile pantry program	43,615	33,614
School pantry program	23,217	52,585
Feeding America	150,000	150,000
United Way	-	65,310
<b>TOTAL</b>	<b>\$ 452,939</b>	<b>\$ 462,411</b>

**NOTE F - INVESTMENTS**

Investments are stated at fair value based on quoted market prices and consist of the following:

	December 31, 2023		December 31, 2022	
	Cost	Fair Value	Cost	Fair Value
Short-term Investments:				
Certificates of deposits	\$ 4,008,782	\$ 4,025,667	\$ 1,602,000	\$ 1,600,586
U.S. Government Obligations	1,107,130	1,122,266	1,000,959	1,008,115
Total Short-term Investments	<b>\$ 5,115,912</b>	<b>\$ 5,147,933</b>	<b>\$ 2,602,959</b>	<b>\$ 2,608,701</b>

	December 31, 2023		December 31, 2022	
	Cost	Fair Value	Cost	Fair Value

**NOTES TO FINANCIAL STATEMENTS**  
December 31, 2023 and 2022

---

**NOTE G - FAIR VALUE MEASUREMENTS**

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The Food Bank has characterized its financial instruments, based on the three levels of the fair value hierarchy, described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 fair value inputs are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted market prices in active markets for similar assets, quoted prices in markets that are not active for identical or similar assets and other market observable inputs such as interest rate, credit spread and foreign currency exchange rates observable in the marketplace or derived from market transactions.

Level 3 fair values are based on at least one significant unobservable input for the asset. Level 3 securities contain unobservable market inputs and as a result considerable judgment may be used in determining the fair values.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

*Certificate of deposits:* Valued at original cost plus accrued interest, which approximates fair value.

*Money market funds:* As a practical expedient, valued at net asset value (NAV) of shares held at year end.

*Equities:* Valued at the closing price reported on the active market on which the individual securities are traded.

*Mutual Funds:* Valued at quoted market prices on the last business day of the year.

*U.S. Government Obligations:* Valued on the basis of market valuations primarily furnished by an independent pricing service which employs various evaluation methods, utilizing the most appropriate method for each security. Such market valuations may represent the last quoted price on the securities' major trading exchange, quotes received from dealers or market makers in the relevant securities, or matrix pricing.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Food Bank believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Second Harvest Food Bank of the Mahoning Valley

**Second Harvest Food Bank of the Mahoning Valley**  
**NOTES TO FINANCIAL STATEMENTS**  
December 31, 2023 and 2022

---

**NOTE H - RETIREMENT PLAN**

The Food Bank maintains a defined contribution profit-sharing plan for its eligible leased employees. To be eligible, a leased employee must be 21 years of age and have completed one year of service. Contributions to the plan are made at the discretion of management, based on results of operations from year to year. No contributions to the plan have been made for the years ended December 31, 2023 and 2022.

The Food Bank also maintains an employee retirement plan under which employees may defer a portion of their annual compensation, pursuant to Section 403(b) of the Internal Revenue Code. The Food Bank can elect to match a percentage of the employees' contributions. Food Bank contributions to the plan for the years ended December 31, 2023 and 2022 were \$43,660 and \$57,091, respectively. Substantially, all employees who have completed at least one year of service are eligible to participate in the plan.

**NOTE I - CONCENTRATION OF RISK**

The Food Bank maintains its cash in various financial institutions which, at times, may exceed federally insured limits of \$250,000. The Food Bank has not experienced any losses from such accounts, and management believes the Food Bank is not exposed to significant credit risk related to bank deposit accounts.

The Food Bank maintains a major portion of its funds in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the Food Bank's account balances and the amounts reported in the statements of financial position.

**Major Contributors**

The Food Bank received approximately 29.4% in 2023 and 22.4% in 2022 of its funding from the United States Department of Agriculture (USDA) in the form of grants and donated food. During the years ended December 31, 2023 and 2022, the Food Bank received \$548,335 and \$273,757 in grants and \$7,024,751 and \$3,796,103 of donated food from the USDA, respectively.

**NOTE J - RELATED PARTY TRANSACTIONS**

As a member of the food bank network, the Food Bank purchases food product from Feeding America. Total purchases for the years ended December 31, 2023 and 2022 totaled \$8,459 and \$39,409, respectively.

**NOTE K - SUBSEQUENT EVENTS**

The Food Bank evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 26, 2024, which is the date the financial statements were available to be issued.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

BOARD OF TRUSTEES  
SECOND HARVEST FOOD BANK OF THE MAHONING VALLEY

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Second Harvest Food Bank of the Mahoning Valley (a nonprofit organization), which comprise the statement of financial position as of December 31, 2023 and related statements of activities, functional expenses, and cash flows for the year then ended and the related notes to the financial statements, and have issued our report thereon dated September 26, 2024.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Second Harvest Food Bank of the Mahoning Valley's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Second Harvest Food Bank of the Mahoning Valley 's internal control. Accordingly, we do not express an opinion on the effectiveness of Second Harvest Food Bank of the Mahoning Valley 's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of Second Harvest Food Bank of the Mahoning Valley 's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purposes described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Second Harvest Food Bank of the Mahoning Valley 's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purposes of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Second Harvest Food Bank of the Mahoning Valley 's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Second Harvest Food Bank of the Mahoning Valley 's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

BOARD OF TRUSTEES  
SECOND HARVEST FOOD BANK OF THE MAHONING VALLEY

### **Report on Compliance For Each Major Federal Program**

#### **Opinion on Each Major Federal Program**

We have audited Second Harvest Food Bank of the Mahoning Valley's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Second Harvest Food Bank of the Mahoning Valley's major federal programs for the year ended December 31, 2023. Second Harvest Food Bank of the Mahoning Valley's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Second Harvest Food Bank of the Mahoning Valley complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

#### **Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Second Harvest Food Bank of the Mahoning Valley and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Second Harvest Food Bank of the Mahoning Valley's compliance with the compliance requirements referred to above.

#### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Second Harvest Food Bank of the Mahoning Valley's federal programs.

## **Auditor's Responsibilities for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above have occurred, whether due to fraud or error, and express an opinion on Second Harvest Food Bank of the Mahoning Valley's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Second Harvest Food Bank of the Mahoning Valley's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Second Harvest Food Bank of the Mahoning Valley's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Second Harvest Food Bank of the Mahoning Valley's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Second Harvest Food Bank of the Mahoning Valley's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

*A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

For the year ended December 31, 2023

---

**NOTE A - BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal award activity of the Second Harvest Food Bank of the Mahoning Valley (Food Bank) under programs of the federal government for the year ended December 31, 2023. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of federal regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Food Bank, it is not intended to and does not present the financial position, changes in net assets or cash flows of the Food Bank.

**NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

**NOTE C - FOOD DISTRIBUTION**

Nonmonetary assistance is reported in the Schedule at the approximate average wholesale value of one pound of donated product at the national level for the commodities received and disbursed.

**NOTE D - INDIRECT COST RATE**

The Food Bank has elected not to use the ten percent de minimis cost rate allowable under the Uniform Guidance.

Second Harvest Food Bank of the Mahoning Valley  
**SCHEDULE OF FINDINGS AND QUESTIONED COSTS**
